of the public service). The details of the departing trains are displayed in chronological order according to the traffic. The display in the information lines is content-bound, in the "accident" line the display content is free within certain limits, respectively. untied.

The summary table of arriving / departing trains provides information on the trains arriving at and departing from the station at the same time, according to the regulations (according to the regulations on the implementation of passenger information activities provided within the framework of the public service) between MÁV Zrt. And MÁV-START Zrt. they are inside.

Data on arriving and departing trains are displayed in chronological order according to traffic. The display in the information lines is content-related, in the "accident" line the display content is free or untied.

MAIN TECHNICAL AND TECHNICAL PARAMETERS, COMPONENTS

TECHNICAL PARAMETERS

DISPLAY PARAMETERS:

- One active side design
- Display diagonal: 42 "or 55" (optional)
- Brightness / Indoor design: 900 cd / m²
- Brightness / Outdoor design: 1900 cd / m²
- Resolution: 1920 x 1080 pixels (Full HD)
- Contrast Ratio: 1000: 1 fixed contrast ratio
- Viewing angle: 178/178 degrees
- Automatic brightness control

SOFTWARE, COMPATIBILITY:

- Linux OS, Windows OS on demand
- Compatible with control and monitoring systems systematized in MÁV's telecommunications department, so the device can be accessed and controlled remotely, internal information can be queried (eg alarm information: Current consumption, internal temperature, opening, brightness detection, etc.)

- SNMP Messages
- Screenshot query possible (*optional*)

BUILT-IN INDUSTRIAL COMPUTER PARAMETERS:

- Design: Industrial design - no moving parts
- Processor: 1.5GHz ARM Cortex-A72 4 core
- Memory: 4GB
- Ethernet port: Gigabit Ethernet
- USB Ports: 2 × USB 3.0 and 2 × USB 2.0

MAIN FEATURES OF THE DISPLAY HOUSE:

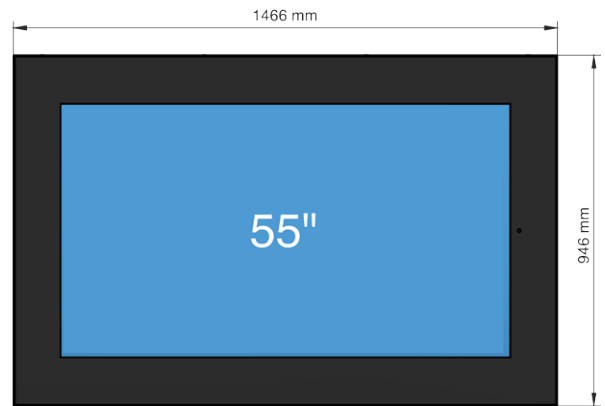

- IP24 Protected - For indoor unit
- IP54 Protection - For outdoor unit
- Also available with thermostatically controlled heating
- The material of the outdoor version is resistant to corrosion and oxidation
- Color can be changed according to RAL code as required
- Anti-reflection vandal-proof glass
- Mounting with wall bracket
- Galvanically isolated motherboard unit
- Operator-friendly design, unique locks that can be opened with a form key

GENERAL FEATURES:

- Ethernet and SFP Optical port connection is optional
- Protects against overheating, overvoltage, overcurrent and burns
- Complies with current CE and IP and EMC directives
- Typical consumption: ~ 400W
(For indoor version: ~ 350W)
- The displays are suitable for 7/24 hour operation
- 43" LCD display weight: 112 kg
- 55" LCD display weight: 148 kg
